

# BAYINFOTECH

TRUSTED PARTNER FOR YOUR CLOUD JOURNEY

## Spring 2019 Tech Info

April means springtime is in bloom; a time for growth and rejuvenation. We're excited for spring and to feature some of the latest at BayInfotech.

### Love Never Fails Fundraiser

BayInfotech was honored to support Love Never Fails (LNF) at their Meaningful Work fundraiser in March. This event supports the work LNF does opening doors for survivors of human trafficking and at-risk young adults. The focus of the night was raising funds for the IT Biz program that provides tools and resources for establishing sustainable careers.

### CRN Tech Elite 250 Award

BayInfotech is grateful to be acknowledged by CRN.com on their 2019 Tech Elite 250 list. This achievement is awarded to solution providers in the U.S. and Canada who have the highest level and most certifications from Amazon, Cisco, Dell, HPE, Oracle, and VMware

### BayInfotech Customer Testimonial Video

Watch an interview with an actual BayInfotech customer. Follow along as Maulik Shyani speaks with Sébastien Morrissette of Intact Financial Corporation about their journey utilizing Cisco

CloudCenter and how BayInfotech helped excel their DC 2.0 project.

### **BayInfotech CEO Podcast Interview**

Listen to Maulik Shyani's podcast debut on Love Never Fails Radio! Vanessa Russell of Love Never Fails(LNF) sat down to talk all about this non-profit we hold dear and the background Maulik is bringing to his LNF advisory board member position.

### **Cisco Application Centric Infrastructure (ACI) Project**

These days, with the growing nature in the world of automation, ACI plays a crucial role in the industry to assure networks work more effectively and efficiently. Last month, BayInfotech implemented ACI for a Cisco Partner's end customer facilitating the flexibility to move applications seamlessly to any location or any cloud while maintaining security and high availability. For the customer it has not only reduced total cost of ownership but also enabled automation of IT tasks, and accelerates data center application deployments.

### **Machine Learning: The Modern Way**

Machine learning (ML) is a way through which modern machines can adapt to new things quickly. Understand what ML does for modern adaption and more about the "Field of study that gives computers the capability to learn without being explicitly programmed." -Arthur Samuel, scientist and pioneer of machine learning.
